Website ideas

Brainstorm some ideas for a website

God of war runthrough

Slime rancher

History of australia

How to make a perfect grilled cheese sandwich

Refining my idea & statement of intent

Refine your idea

Who is it targeted for- this will be for the audience who need to know how to play slime rancher

What are you making- slime rancher website

Why do i need to make them- to help people who get stuck

How will it affect them- it will allow them to progress through the game with some help

Statement of intent:

I intend to make a website that will help amateur players make it through the game when they're stuck. It will also include things like info on the game, a full game runthrough, images, all slimes and slimepedia, npc's, missions, gordo, tarrs, food and all the animals you can find along your journey. This is very helpful when it comes to finding rare, early or late game slimes. Even some veterans will find it difficult to make it through some parts.

My website will include buttons to take you to the parts of the page which has the information you need. I will also add a nice colour scheme and a background which fits the section of the website. As well as loads of information on how you can beat the game, I will add images of all the slimes and resources which you can get.

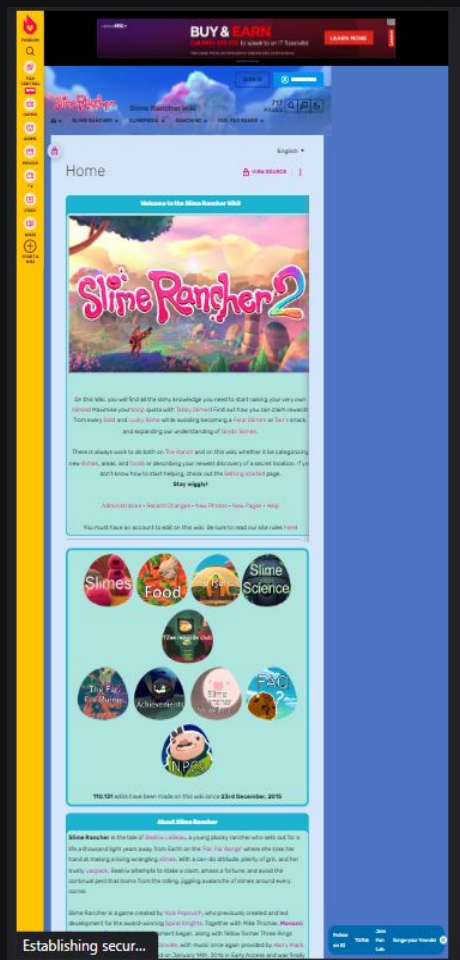

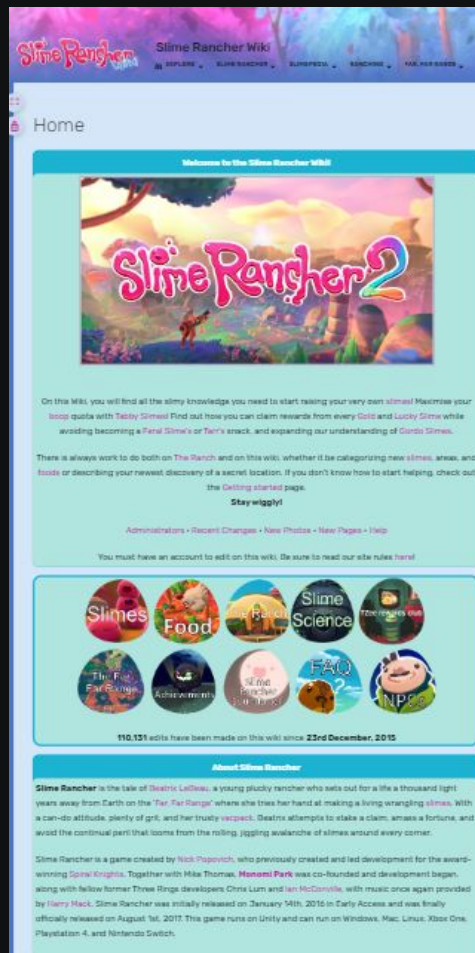

I have to add all of this because having all of these features makes my website look so much better. Adding the cool colour scheme and the easy to find buttons makes it so much easier to read and access.

From visiting my website you will get all the information you need on how to beat the game, how to find every slime and every resource which can be found. You will also find things like facts, speedrunning time, facts and more. Everything you need to know about the game and how to beat will be found on my website.

Existing design

1. The colour scheme and text links are a nice addition as well as the headers and background colour add a nice touch.
2. The buttons are super cool since they take you to a new page with all the info you need on them.
3. The buttons and colour scheme will surely attract more customer

Slime Rancher is a [first-person life simulation](#) [adventure](#) video game developed and published by American indie studio Monomi Park.^[1] The game was released as an [early access](#) title in January 2016, with an official release on [Windows](#), [macOS](#), [Linux](#) and [Xbox One](#) on August 1, 2017.^[2] A [PlayStation 4](#) version was released on August 21, 2018, and a [Nintendo Switch](#) version was released on August 11, 2021. A [DLC](#) named 'Slime Rancher: Secret Style Pack' was released on June 18, 2019 which added additional cosmetic appearances.^[3] A sequel, *Slime Rancher 2*, was released in [early access](#) on September 22, 2022, for [Windows](#) and [Xbox Series X/S](#).^[4]

Slime Rancher

Existing design

1. The way they give dot points on all the things you can do, updates and game data is a good way of displaying information
2. I don't like how its black and white but the buttons up the top are cool
3. I can add some dot points to add more info

Slime Rancher

The word "Moe Blob" has never been more appropriate.

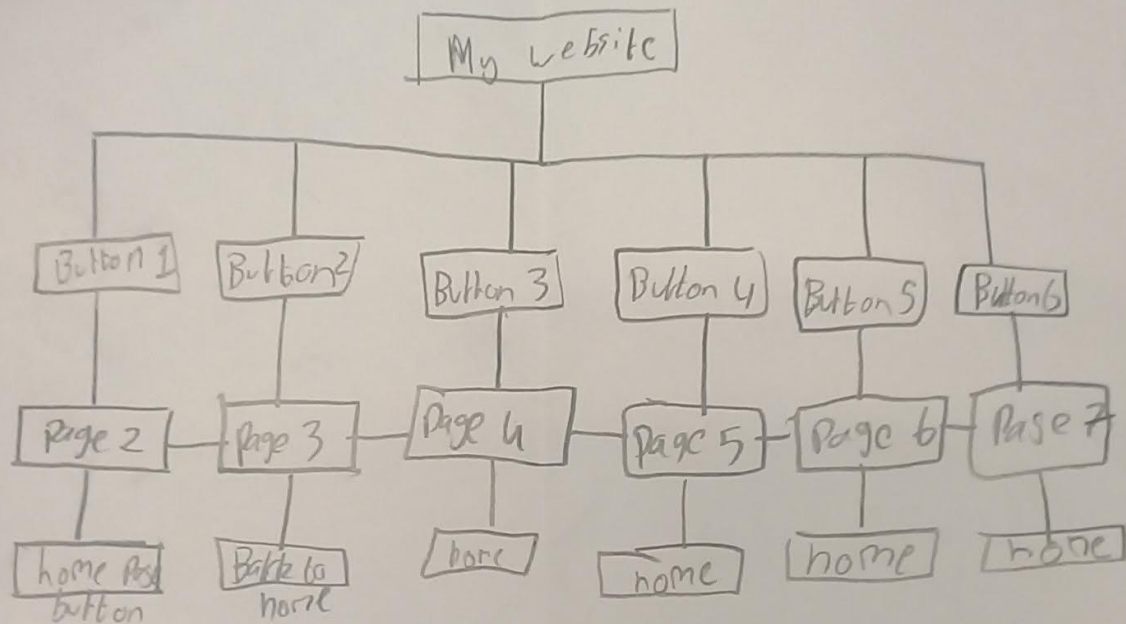

Existing design

1. It shows the rating of the game which i like and the image and the video of gameplay is cool as well
2. I don't like how the information is displayed in uneven paragraphs
3. A video would be cool to add to my website
